

HMP HACKER

I'm standing in jail but I feel so free

I cut men all the time ask Nunz and Ms P

I been hacking away for the last few week

I do it so raw but I get no IEP

They come to me rugged so I do it fresh

When I shape face for me is the best

If I make a mistake then I go harder

I'm no black sheep, I'm defiantly a barber

Time to be counted, Time to stand up

For me the way forward is man get cut.

I carve and I mould but they leave like my bruv

Others admire so I'm sharing the love

Come to my door your get hook up

Any race or religion, hairs get tuck

Anything left, get sweep up

Put in the bin and sent on a truck

Clipping your head but nobody dead

Clipping your head to make my bread

Clipping your head but there is no police

Stand and be counted for when I'm released.
